EXPERT REVIEW COMMITTEE:

Should a large number of qualified candidates file for this examination, an expert review committee may be assembled to evaluate each candidate's qualifications for the position of Graphics Designer. In this evaluation, the expert review committee will assess each candidate's training and experience based upon the information in the candidate's City employment application and the Qualifications Questionnaire. Those candidates considered by the expert review committee as possessing the greatest likelihood of successfully performing the duties of a Graphics Designer, based solely on the information presented to the committee, will be invited to participate in the interview.

SELECTION PROCESS

Examination Weight: Interview 100%

The examination will consist entirely of an evaluation of the candidate's personal and professional qualifications by interview. In the interview, emphasis will be placed on the candidate's background, work experience, and personal qualifications as they have prepared the candidate to perform the duties of a Graphics Designer, including: the quality and technical capability of the candidate to prepare displays, layout design for websites, descriptive charts, brochures for commercial or public use; and knowledge of design principles, methods, and media; equipment; printing and reproduction methods; typography and elements of color; and the ability to accurately and effectively translate oral and written information into graphic presentations; use computerized graphics hardware and software in graphics design applications; draw and generate a wide variety of subjects including technical and non-technical illustrations; produce presentation media; determine the most appropriate and effective use of color; understand and analyze information received pertaining to graphics design projects to effectively design posters, pamphlets, displays, and exhibits for informational, educational, and publicity purposes; estimate the amount of time required to meet deadlines for graphics projects; review and evaluate work for adequacy, accuracy, and conformance to instructions; communicate effectively; deal tactfully and effectively with the public and other employees; and other necessary skills, knowledge, and abilities.

As part of the interview, candidates will be required to present to the interview board a **portfolio** with samples of their graphics design work. While the interviewers will not assign a separate score to the samples, the interviewers will consider the quality of the samples in their overall evaluations of the candidate's qualifications. Candidates should expect the interviewers to discuss the samples with them during their interviews. **All samples will be returned to the candidates after the conclusion of their interviews.**

Specific information regarding the portfolio of graphics design samples to be presented to the interview board will be mailed to those candidates invited to participate in the interview.

Candidates will be notified by mail of the date, time, and location of the interview, which will be held in Los Angeles. It is anticipated that interviews will begin during the period of **OCTOBER 27, 2014 to NOVEMBER 7, 2014.**
