QUALIFICATIONS REVIEW

Should a large number of qualified candidates file for this examination, each candidate's qualifications for the position of Construction Estimator may be evaluated based on the candidate's Qualifications Questionnaire. Those candidates considered possessing the greatest likelihood of successfully performing the duties of a Construction Estimator, based solely on the information submitted for qualifications review, will continue in the selection process.

SELECTION PROCESS

Examination Weight:	Essay	Advisory
	Interview	100%

The examination will consist entirely of an evaluation by interview. In the interview, emphasis may be placed on the adequacy of the candidate's work experience and professional development as they have provided the background necessary to perform the duties of a Construction Estimator, including knowledge of: reinforced concrete, steel, masonry, and wood frame buildings; electrical and mechanical installations in buildings; prevailing wages, construction practices, and terminology used in the building, electrical, and mechanical trades; type I, II, III, IV, and V buildings under the Uniform Building Code and Los Angeles City Building Code; and the ability to accurately estimate material, equipment, and labor costs in the construction, maintenance, alteration, and repair of structures and facilities; evaluate and process contract Change Orders; make cost analyses of complete structures on a per square foot basis; read and interpret building plans, sketches, and specifications; use computer applications, such as spreadsheets and estimating programs; write clear and comprehensive technical reports; communicate orally in a clear and effective manner; deal tactfully and effectively with contractors, employees and the public; and other necessary skills, knowledge and abilities.

As part of their evaluation of each candidate's overall qualifications for the job, the interview panel members will consider the information in the candidate's Qualifications Questionnaire. Candidates may expect panel members to discuss this information during the interviews. Unsolicited supplemental information will not be submitted to the interview panel.

Candidates will be notified by e-mail of the date, time, and location of the interview, which will be held in Los Angeles. It is anticipated that interviews will begin during the period of **OCTOBER 3, 2016 to OCTOBER 14, 2016**.

Candidates will be required to complete an advisory essay exercise related to the duties and responsibilities of a Construction Estimator. This material will not be separately scored but will be presented to the interview board for discussion with each candidate and for consideration in the overall evaluation of the candidate's qualifications. Those who do not complete the advisory essay will not be invited to the interview and will be considered to have failed the entire examination. Candidates will be notified by e-mail of the time and location of the advisory essay test, which will be held in a single half-day session in Los Angeles, on **SATURDAY, SEPTEMBER 10, 2016**.

Each candidate may bring one architect scale, one civil engineer scale, one standard or scientific calculator, and one magnifying glass to the advisory exercise session. A voltage supply will **not** be available in the examination room. You will **not** be permitted to refer to written instructions for the use of the scales or calculator.

APPROVED TEST ITEMS FACT SHEET

A fact sheet has been developed to assist candidates in determining the type of items that will be allowed in the advisory exercise session. The fact sheet is available online at <https://per.lacity.org/exams/3341fact.pdf>.
